

**Ideation Phase**  
**Define the Problem Statements**

Date	19 October 2022
Team ID	PNT2022TMID47442
Project Name	University Admit Eligibility Predictor
Maximum Marks	2 Marks

**Problem Statement:**

Student admission problem is very important in educational institutions. This project addresses machine learning models to predict the chance of a student to be admitted to a master's program. This will assist students to know in advance if they have a chance to get accepted. The machine learning models are multiple linear regression, k-nearest neighbour, random forest, and Multilayer Perceptron. Experiments show that the Multilayer Perceptron model surpasses other models.
